

Powerman International W.L.L

QUALITY POLICY

Powerman International. WLL (PM) is involved in “Undertaking infrastructure development projects including construction of roads, utility networks, minor buildings and warehouses”. And is committed to provide superior quality service to it’s customers and to conduct it’s business in a responsible, safe and profitable manner through continual improvement of its quality performances.

At *PM* we are committed to ensure this by -

- Clearly recognising the scope and carrying out jobs, in the above areas, conforming to the standards and requirements specifically stated and agreed with our customers/clients to their satisfaction.
- Associating from time to time with strategic partners or specialist contractors to extend the range of services offered ensuring that they are also conforming to the standards and requirements clearly stated in the agreement made with its customer/client to their satisfaction.
- Continually improving the Quality Management System (QMS) by building learning & sharing culture and through systematic review of our procedures, objective and targets related to Quality.
- Complying with all the legal requirements of the State of Qatar and/or any Local Authorities as applicable related to quality.
- Effectively communicating, motivating, training, empowering and engaging all our employees in our efforts related to QMS and improving their competency and team spirit.

This policy shall be evaluated or reviewed for its continued suitability and will be timely communicated to employees of PM and will be made available to its customers/clients and other interested parties on request.

Dr.HASSAN KUNHI M.P
CHAIRMAN
